† Custom item – please consult factory for lead time and minimum order requirements. Additional sizes up to 4" OD are available as custom extrusions – minimum order requirements may apply. Please contact Pexco for details.

## ALTAFLO 200 FEP

**FEP (fluorinated ethylene propylene)** is an economical choice for applications requiring chemical resistance in combination with broad temperature exposure. ALTAFLO 200 FEP offers excellent clarity, which makes it ideal for sight glass/flow monitoring applications. Additionally, the outstanding UV transmission rate of FEP makes it a clear choice for UV water purification systems.

ALTAFLO 200 Series FEP will not impart taste or odor. ALTAFLO 200 tubing may be used with flare or conventional fittings.

## Features

- 100% virgin grade high-performance resins used to resist stress cracking
- Chemically inert to most industrial chemicals and solvents
- High thermal stability
- Excellent UV transmission
- Low permeability
- Moisture absorption nearly zero
- FDA compliant for food contact
- Non-flammable
- Superior electrical insulation properties
- Available in smooth bore, convoluted and coiled hose constructions

## Applications

- Chemical process
- Food processing
- Laboratory applications
- Electrical insulation
- UV water purification systems
- Automotive
- Groundwater monitoring
- Paint spray

## Specifications

- **General:** Meets or exceeds the requirements listed in ASTM D 2116 Type IV
- **Temperature:** -100°F to 400°F
- **Flammability:** FEP resists combustion and does not promote flame spread
- **FDA:** ALTAFLO 200 FEP is approved for use in food contact applications in compliance with FDA regulation: 21 CFR 177.1550
- **USP Class VI:** ALTAFLO 200 FEP meets the requirements of USP Class VI
- **NSF:** ALTAFLO 200 FEP tubing is certified to NSF 61 and NSF 372

Due to the nature of applications involving the use of fluoropolymers, we suggest that all customers test product within the conditions specific to their application prior to use.

### ALTAFLO 200 Series FEP // Physical Properties

Physical Property	ASTM Test Method	Units	Values
Upper Service Temp.			400° F
Specific Gravity	D 792		2.15
Tensile Strength	D 1708	PSI	4,000
Elongation	D 638	%	400
Flex Modulus	D 790	PSI	90,000
MIT Flex Life	D 2176		200,000
Hardness	D 2240	Shore D	57-60

**NOTE:** The values represented are based on the use of 100% virgin grade high performance – low melt flow FEP resin as used in the production of ALTAFLO 200 Series Tubing. When comparing data it is critical that performance values are listed for the grade of resin used.

### ALTAFLO 200 FEP // Schedule 40 Pipe

Part Number	Normal Size	Actual OD	Wall	Bend Radius
200-0540-088-0C	1/4"	.540" ± .010	.088" ± .020, -0	10 FT
200-0840-109-0C	1/2"	.840" ± .010	.109" ± .020, -0	10 FT

\*Custom item – please consult factory for lead time and minimum order requirements.

This ALTAFLO 200 FEP has been tested and certified by WQA against NSF/ANSI 61 and NSF/ANSI 372 for lead free compliance.

Testing to NSF 51 is no longer being done by our NSF certifying agent. We have previously received this certification and have reason to believe if tested these products would meet the requirements. Each has currently achieved NSF 61 and NSF 372 certification. We are in the process of locating a new certifying agent for the NSF 51 certification.
